## What is the WHUIA Technical Soccer Center?

West Ham United International Academy Technical Soccer Centers use the exact same Technical Training Syllabus as used by English professional club West Ham United and the West Ham United Youth Academy in London, England. All the coaches at our centers have been trained and mentored by the West Ham United Academy Technical Director. The 30-week program is split into three 10-week blocks and is guaranteed to make each participant a better soccer player; as well as provide the opportunity to be identified and scouted by West Ham United. Training will be held on Sunday evenings in Palm Coast beginning February 12<sup>th</sup>.

**Tony Carr MBE**  
West Ham United Academy Director

Good technique is the foundation of all the work we do at the West Ham United Academy and part of our teaching syllabus is the 'Circle of Technical Development' program. It's comprehensive and covers all the aspects of technical training. Our teams enjoy it and it helps to produce technical, tactically aware, confident and creative footballers

**Tony Carr MBE**  
West Ham United Academy Director
